Wok Vegetables									

This list is compiled based on information provided to California Pizza Kitchen from food manufacturers as of the date of publication.

California Pizza Kitchen's menu is diverse and contains a wide variety of foods, many of which contain one of the eight major allergens: Crustacean shellfish, eggs, fish, milk, peanuts, soybeans, tree nuts or wheat. While we have carefully reviewed our recipes to inform our customers of foods that contain a food allergen as part of the recipe, we cannot guarantee that cross-contact with other foods will not occur during production.
